

Tongo Wallet & Advance Agreement

Member agreement · Version 3.2 · Last updated January 2026

1. Overview

This Agreement governs your use of the Tongo Wallet, the Tongo commission advance facility, the Tongo debit card, and the automatic distribution features (collectively, the “Services”). By creating an account you agree to these terms.

2. Commission Advances

Tongo may extend advances against verified, under-contract real estate transactions for which you are the entitled commission recipient. Advance availability is determined by your verified pipeline, brokerage participation, and underwriting. Advances are repaid automatically from commission proceeds at closing; if a transaction fails to close, repayment terms in Section 6 apply.

3. The Tongo Card

The Tongo debit card draws against your available advance balance. Card purchases reduce your available advance in real time. You are responsible for all authorized transactions made with your card. Lost or stolen cards may be frozen instantly from the Wallet.

4. Automatic Distributions

You may configure distribution rules that route net commission funds to your connected accounts according to percentages you define (“buckets”). Distributions execute when a commission is received. Total allocations may not exceed 100%. You are responsible for the accuracy of your connected account details.

5. Transfers & Fees

Instant Transfer moves eligible funds to your connected account within minutes for a per-transfer fee disclosed at the time of transfer. Standard ACH transfers settle in one to three business days at no charge. Fees are also summarized in your Bank Settings.

6. Repayment & Recourse

Advances are repaid from commission proceeds at closing. In the event a transaction does not close, you agree to repay the outstanding advance balance under the schedule presented at the time of the advance. Tongo holds funds in escrow until a commission is accepted.

7. Escrow & Holding

Commission funds marked “ready to receive” are held in a segregated escrow account until you accept and receive them. Accepted funds are disbursed per your selected destination and transfer method.

8. Privacy & Data

Tongo processes your information in accordance with its Privacy Policy. Account and transaction data are encrypted in transit and at rest. You may request export or deletion of your data subject to legal retention requirements.

9. Termination

Either party may terminate this Agreement subject to settlement of any outstanding advance balance. Upon termination, card access is disabled and remaining wallet funds are transferred to your primary connected account.

10. Contact
